Mon, May 26, 2014 at 3:23 PM

Good Afternoon,

Build SFU is hosting a special focus group with the project architects on **June 4th at 2pm** in the **Think Tank, MBC 2270**. This session will address a variety of issues related to the design and usage of the student organization work suites in our student union building (SUB). (Learn more about the space program, including suites for student organizations, at <http://buildsfu.sfss.ca/sub-programming>.)

There will be eight suites in the SUB for student organizations; three have been allocated to SFSS departments and the remaining five will be assigned to student organizations closer to the date of the building opening. If your student organization is considering applying for one of the SUB's five available suites, we invite you to attend this special session and share your insight and opinions in order to assist us in designing the best student union building possible.

Kind regards,

Build SFU
